

Connecting iOS device to “eduroam”

- a) Tap “**Home**” and select "**Settings**" icon 
- b) Tap “**Wi-Fi**” to list the available wireless networks in range.

- c) Tap "**eduroam**".

- d) Wait until you see the logon window to prompt you for the username and password. Enter your **EID** plus “@cityu.edu.hk” and your **network connection password**. Tap “**Join**” to login.

- e) Our server will provide its server certificate for validation. Verify the certificate:

- It is issued to “**auth.wifi.cityu.edu.hk**”
- It is issued by “**Sectigo RSA Organization Validation Secure Server CA**”.

- You may tap “**More Details**” to see more information.

- f) Tap “**Trust**” to accept the certificate.

You can now access the Internet upon successful logon.
