SS5213: SOCIAL WORK RESEARCH METHODS

Effective Term

Semester B 2024/25

Part I Course Overview

Course Title

Social Work Research Methods

Subject Code

SS - Social and Behavioural Sciences

Course Number

5213

Academic Unit

Social and Behavioural Sciences (SS)

College/School

College of Liberal Arts and Social Sciences (CH)

Course Duration

One Semester

Credit Units

3

Level

P5, P6 - Postgraduate Degree

Medium of Instruction

English

Medium of Assessment

English

Prerequisites

Nil

Precursors

Nil

Equivalent Courses

Nil

Exclusive Courses

Part II Course Details

Abstract

Social workers are guided by theories, research and practice wisdom in their work. It is important for students to be able to understand the importance of knowledge developed from research and to utilize this knowledge in their clinical

and administrative practice. In order to build a firm conceptual foundation for research practice and the integration of research into a wide range of social work activities, this course will expose students to social science research ethics and the fundamental elements of social science research methods. Approaches to intervention research, social research and development, clinical research with individuals and groups, single-subject design, case study, qualitative approaches, use of narratives, and process studies will be explored. Students will be required to design an intervention research project and assess its strengths and weaknesses.

This course aims to

- · Develop a scientific attitude towards the empirical research process and become familiar with the basic characteristics of social research.
- · Understand the nature of the components which are fundamental to the development, and completion of social science research.
- · Critically examine the factors involved in the selection of research designs appropriate to the study of social services.
- · Acquire knowledge and understanding of various research methods and statistical analysis applicable to social work settings.

Course Intended Learning Outcomes (CILOs)

	CILOs	Weighting (if app.)	DEC-A1	DEC-A2	DEC-A3
1	Understand the nature and methods of social research and program evaluation; comprehend the appropriate applications of each method.		X	X	
2	Understand the strengths and limitations of various research methods in scientific inquires.		X	X	
3	Demonstrate capabilities of applying research methods and statistical analysis to the social work settings in order to help build up an attitude of evidence-based practice; and can identify strengths and weaknesses of social work research in the process of professional inquires.		X	X	X
4	Develop a manner of scientific and logical inquires in social work practice for enhancement of the profession development.		Х	X	X

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to real-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

Learning and Teaching Activities (LTAs)

	LTAs	Brief Description	CILO No.	Hours/week (if applicable)
1	Lecture	Explain key concepts, theories, methods and skills related to social work research	1, 2	
2	Small study/ project group learning and class discussion	Students are organized into small study/ project groups to discuss and consult the relevant intellectual inputs they learnt in the lectures, and develop their own research projects by the research knowledge and skills they obtained.	1, 2, 3, 4	
3	SPSS workshop	Live demonstrations and hand-on exercises of using SPSS for data analysis are organized in workshop formats to enhance students' application of empirical data and evidence to their social work inquires.	1, 3, 4	
4	Group presentation	Students of respective study/ project groups are required to deliver a presentation to their peer colleagues in order to convey and exchange research ideas, knowledge, methods, skills and results they obtained in their research group projects.	1, 2, 3, 4	
5	Group research proposal	Students in the small study/ project groups are required to work together to formulate a research proposal as a demonstration of their research knowledge and skills learned in the course.	1, 2, 3, 4	

4 SS5213: Social Work Research Methods

6	Student consultation	Scheduled student group	1, 2, 3, 4	
		consultation is arranged		
		to facilitate more teacher-		
		student and student-		
		student interaction		
		and discussion, more		
		in-depth learning		
		and understanding of		
		knowledge.		

Assessment Tasks / Activities (ATs)

	ATs	CILO No.	Weighting (%)	Remarks (e.g. Parameter for GenAI use)
1	AT1: Class Participation and Discussion: Students' attendance, active involvement in class discussion, initiation in sharing and contributing ideas, attitudes in learning together, and willingness to improve learning will all be taken into account.	1, 2, 3, 4	10	
2	AT2: Quiz: During the first semester, a 1.5 hour quiz in multiple-choice format will be carried out to test their research methodology knowledge from the lectures, reference reading book list and essential texts.	1, 2	25	
3	AT3: SPSS Exercise: Students in the class need to analyse a dataset that was collected by themselves as the practice of SPSS knowledge in order to enhance their statistical procedures skills.	1, 3, 4	10	
4	AT3: Group Presentation: The group presentation aims at assessing students' competence and ability to demonstrate, organize, and convey research knowledge learnt as a means of professional growth.	1, 2, 3, 4	15	

5	AT4: Group Research	1, 2, 3, 4	40	
	Proposal:			
	Students will team up not			
	more than 4 classmates to			
	write a research proposal			
	based on social welfare			
	issues as study topic to			
	demonstrate the research			
	knowledge, methodology			
	and skills learned.			

Continuous Assessment (%)

100

Assessment Rubrics (AR)

Assessment Task

1) Class Participation and Discussion (for students admitted before Semester A 2022/23 and in Semester A 2024/25 & thereafter)

Criterion

1.1 Capacity for demonstrating the research knowledge and methods required for scientific inquiries in the social work settings

Excellent

(A+, A, A-) High

Good

(B+, B, B-) Significant

Fair

(C+, C, C-) Moderate

Marginal

(D) Basic

Failure

(F) Not even reaching marginal levels

Assessment Task

2) Quiz (for students admitted before Semester A 2022/23 and in Semester A 2024/25 & thereafter)

Criterion

- 2.1 Capacity for demonstrating the research knowledge and methods required for scientific inquires in the social work settings
- 2.2 Ability to analyse and use the research knowledge and methods learnt

Excellent

(A+, A, A-) High

Good

(B+, B, B-) Significant

-	_			
	Η,	a	1	*
-	١.	а		

(C+, C, C-) Moderate

Marginal

(D) Basic

Failure

(F) Not even reaching marginal levels

Assessment Task

3) SPSS Exercise (for students admitted before Semester A 2022/23 and in Semester A 2024/25 & thereafter)

Criterion

- 3.1 Capacity for presenting knowledge and skills of statistical procedures for social work research purpose
- 3.2 Ability to comprehend suitable statistical procedures to be used in an appropriate social work context

Excellent

(A+, A, A-) High

Good

(B+, B, B-) Significant

Fair

(C+, C, C-) Moderate

Marginal

(D) Basic

Failure

(F) Not even reaching marginal levels

Assessment Task

4) Group Presentation (for students admitted before Semester A 2022/23 and in Semester A 2024/25 & thereafter)

Criterion

- 4.1 Capacity for demonstrating the research knowledge and methods required for scientific inquiries in the social work settings
- 4.2 Ability to use and deliver the research knowledge and methods learnt
- 4.3 Demonstration of the application of acquired research knowledge and methods in the social work settings

Excellent

(A+, A, A-) High

Good

(B+, B, B-) Significant

Fair

(C+, C, C-) Moderate

(D) Basic

Failure

(F) Not even reaching marginal levels

Assessment Task

5) Group Research Proposal (for students admitted before Semester A 2022/23 and in Semester A 2024/25 & thereafter)

Criterion

- 5.1 Capacity for demonstrating the research knowledge and methods required for scientific inquires in the social work settings
- 5.2 Ability to use and deliver the research knowledge and methods learnt
- 5.3 Demonstration of the application of acquired research knowledge and methods in the social work settings
- 5.4 Understating the strengths and constraints of research methods in the social work settings

Excellent

(A+, A, A-) High

Good

(B+, B, B-) Significant

Fair

(C+, C, C-) Moderate

Marginal

(D) Basic

Failure

(F) Not even reaching marginal levels

Assessment Task

1) Class Participation and Discussion (for students admitted from Semester A 2022/23 to Summer Term 2024)

Criterion

1.1 Capacity for demonstrating the research knowledge and methods required for scientific inquiries in the social work settings

Excellent

(A+, A, A-) High: Can excellently participate in discussion of research knowledge and methods required for scientific inquires in the social work settings

Good

(B+, B) Significant: Can show good participation in discussion of research knowledge and methods required for scientific inquires in the social work settings

Marginal

(B-, C+, C) Moderate: Can show adequate participation in discussion of research knowledge and methods required for scientific inquires in the social work settings

Failure

(F) Not even reaching marginal levels: Cannot show adequate participation in discussion of research knowledge and methods required for scientific inquires in the social work settings

Assessment Task

2) Quiz (for students admitted from Semester A 2022/23 to Summer Term 2024)

Criterion

- 2.1 Capacity for demonstrating the research knowledge and methods required for scientific inquires in the social work settings
- 2.2 Ability to analyse and use the research knowledge and methods learnt

Excellent

(A+, A, A-) High: Can answer the questions related to the research knowledge and methods required for scientific inquires in the social work settings excellently

Good

(B+, B) Significant: Can answer the questions related to the research knowledge and methods required for scientific inquires in the social work settings at a good level

Marginal

(B-, C+, C) Moderate: Can answer the questions related to the research knowledge and methods required for scientific inquires in the social work settings moderately

Failure

(F) Not even reaching marginal levels: Cannot answer the questions related to the research knowledge and methods required for scientific inquires in the social work settings even at a moderate level

Assessment Task

3) SPSS Exercise (for students admitted from Semester A 2022/23 to Summer Term 2024)

Criterion

- 3.1 Capacity for presenting knowledge and skills of statistical procedures for social work research purpose
- 3.2 Ability to comprehend suitable statistical procedures to be used in an appropriate social work context

Excellent

(A+, A, A-) High: Can show ability to conduct statistical procedures for social work research excellently

Good

(B+, B) Significant: Can show ability to conduct statistical procedures for social work research at a good level

Marginal

(B-, C+, C) Moderate: Can show ability to conduct statistical procedures for social work research moderately

Failure

(F) Not even reaching marginal levels: Cannot show ability to conduct statistical procedures for social work research even at a moderate level

Assessment Task

4) Group Presentation (for students admitted from Semester A 2022/23 to Summer Term 2024)

Criterion

- 4.1 Capacity for demonstrating the research knowledge and methods required for scientific inquiries in the social work settings
- 4.2 Ability to use and deliver the research knowledge and methods learnt
- 4.3 Demonstration of the application of acquired research knowledge and methods in the social work settings

Excellent

(A+, A, A-) High: Can present the use of the research knowledge and methods required for scientific inquires in the social work settings in the research project excellently.

Good

(B+, B) Significant: Can present the use of the research knowledge and methods required for scientific inquires in the social work settings in the research project at a good level

Marginal

(B-, C+, C) Moderate: Can present the use of the research knowledge and methods required for scientific inquires in the social work settings in the research project moderately

Failure

(F) Not even reaching marginal levels: Cannot present the use of the research knowledge and methods required for scientific inquires in the social work settings in the research project even at a moderate level

Assessment Task

5) Group Research Proposal (for students admitted from Semester A 2022/23 to Summer Term 2024)

Criterion

- 5.1 Capacity for demonstrating the research knowledge and methods required for scientific inquires in the social work settings
- 5.2 Ability to use and deliver the research knowledge and methods learnt
- 5.3 Demonstration of the application of acquired research knowledge and methods in the social work settings
- 5.4 Understating the strengths and constraints of research methods in the social work settings

Excellent

(A+, A, A-) High: Can demonstrate the ability of applying the research knowledge and methods required for scientific inquires in the social work settings, including its strengths and constraints, in the research project excellently

Good

(B+, B) Significant: Can demonstrate the ability of applying the research knowledge and methods required for scientific inquires in the social work settings, including its strengths and constraints, in the research project at a good level

Marginal

(B-, C+, C) Moderate: Can demonstrate the ability of applying the research knowledge and methods required for scientific inquires in the social work settings, including its strengths and constraints, in the research project moderately

Failure

(F) Not even reaching marginal levels: Cannot demonstrate the ability of applying the research knowledge and methods required for scientific inquires in the social work settings, including its strengths and constraints, in the research project even at a moderate level

Part III Other Information

Keyword Syllabus

1.1 Social Science Research Methods

Scientific inquiry. Scientific logic. Epistemology. Problem formulation. Reliability and validity of measurement. Single-subject design. Survey research. Qualitative research methods. Quantitative research methods. Mixed methods. Causal inference. Internal validity. Threats to internal validity. Alternative and rival hypotheses. External validity. Probability and non-probability sampling methods. Statistics. Descriptive and inferential data analysis. Program evaluation.

1.2 Research Ethics

Human subjects research. Informed consent. Voluntary participation. Protection of human subjects. Anonymous and confidential studies. Incentive vs. inducement. Ethics review boards. Expedited and full ethics reviews. Promoting the development of research knowledge.

Reading List

Compulsory Readings

	Title
1	Engel, R.J. & Schutt, R.K. (2010). The Fundamentals of Social Work Research, Thousand Oaks, CA:SAGE.
2	Engel, R. J., & Schutt, R. K. (2013). The practice of research in social work. Thousand Oaks, CA: SAGE.
3	Shaw I. et al. (Eds) (2010). The SAGE handbook of social work research. Los Angeles: SAGE.
4	Rubin, A. & Babbie, E. (2008) Research methods for social work (6th ed.) Belmont, CA: Thomson Brooks/Cole Publishing Company.

Additional Readings
