

Liuqing Yu (于留青) is a PhD candidate at the Lee Kuan Yew School of Public Policy, National University of Singapore. His research examines the impact of climate-related financial risks on macroeconomic policy management, focusing on how climate change influences balance of payments stress and interest rate passthrough in emerging economies. Liuqing is also working on indexing and quantifying a global climate policy database.

He is currently visiting The City University of Hong Kong until the end of July 2025. Prior to his academic journey, Liuqing worked as an analyst at The Economist Intelligence Unit (EIU), providing analysis and forecasts for India, Indonesia, and Singapore. In addition to his research, Liuqing now also runs a boutique geopolitics and macro consulting business, Pergi Pulang Research and Consulting Limited.
