

Prof. Stephen JAN

Prof Stephen Jan is Co-Director of Health Systems Science at the George Institute for Global Health, Conjoint Professor of Health Economics at the University of New South Wales, and a Fellow of the Australian Academy of Health and Medical Sciences. He is a visiting researcher at the Centre for Health Economics Policy Innovation at the Business School, Imperial College London and Adjunct Professor at the Department of Public and International Affairs, City University of Hong Kong.

His areas of expertise are economic evaluation, health financing, health sector priority setting, Indigenous and global health issues. He was a member of the Lancet Taskforce on Non-Communicable Diseases and Economics. He has published over 350 scientific papers and led numerous studies around the household economic impact of non-communicable diseases including ACTION (8000+ patients cancer in SE Asia), EPICOR-Asia economic sub-study (11,000+ patient with heart disease in Asia) and VISIONARY (400+ patients with cataract in Vietnam). He has worked with governments, both in Australia and overseas, and with international agencies such as the WHO, NCD Alliance and industry and has served as on the Board of Directors of the Sax Institute, a non-profit research organisation in Sydney.
