

## Application for an Extension of the Study Period (SGS03)

### Notes:

(1) Students who are under the current study period structure are required to complete their studies within the stipulated study period. Those who have special grounds for being unable to comply with the above may submit an application for an extension of their study period (irrespective of the student's mode of study) before their original study period expires.

- **First extension of 12 months**
- **Second extension up to 12 months**
- **Third extension up to 6 months**

Failure to complete the study by the end of the third extension will lead to termination of study unless there are truly extenuating circumstances.

(2) For on-campus housing, priority would be given to eligible research students who are studying within their normal study period. Students who cannot complete their study on time would be put on waiting list until all eligible applicants have been processed and a surcharge of 25% would be levied on all out-time students.

(3) For students under Mainland Collaboration Schemes during study extension period, no accommodation would be provided by the University and no office space would be provided by SGS.
