**Venue :** Video Seminar Room[G5353, 5/F, School of Law, Yeung Kin Man Academic Building, City University of Hong Kong]

Dr. Raul Iturralde Gonzalez is a Visiting Fellow at City University of Hong Kong.

**Abstract:**

Mexico has been reforming its law for decades in order to accommodate secured transactions similar to those found in article 9 of the UCC. Changes were necessary as the law did not allow these securities to develop organically. This seminar examines the history of the reforms that resulted in the modern law of secured transactions in Mexico. A brief introduction to the history of Mexican commercial law and the Mexican law of property and contracts will be given.
