EF4334: REGULATION AND MANAGEMENT OF FINANCIAL INSTITUTIONS

Effective Term

Semester A 2024/25

Part I Course Overview

Course Title

Regulation and Management of Financial Institutions

Subject Code

EF - Economics and Finance

Course Number

4334

Academic Unit

Economics and Finance (EF)

College/School

College of Business (CB)

Course Duration

One Semester

Credit Units

3

Level

B1, B2, B3, B4 - Bachelor's Degree

Medium of Instruction

English

Medium of Assessment

English

Prerequisites

CB3410 Financial Management or FB3410 Financial Management or EF3333 Financial Systems, Markets and Instruments

EF4420 Derivatives Analysis and Advanced Investment Strategies or EF4320 Advanced Security Analysis and Portfolio Management or EF4321 Derivatives and Risk Management

Precursors

Part II Course Details

Abstract

This course aims to highlight the important role that regulations come into play when managing the risks of financial institutions. In this regard, Basel Accords will be discussed in detail, with special attention to credit risk, market risk and capital adequacy under Basel II and Basel III. The course also looks at major regulations that are having an impact on the management of financial institutions in the USA and the world, such as the Patriot Act and Gramm-Leach-Bliley Act. An overview of relevant local ordinances, including the Banking Ordinance, Insurance Companies Ordinance, and the Securities and Futures Ordinance, will also be given. It is equally important that students have a sound understanding of tools that financial institutions use to manage various risks and their applications in the context of evolving regulations. Topics include duration, Value-at-Risk, credit derivatives, interest rate futures, caps/floors, options and swaps. The course also aims to develop students' creative and innovative abilities through various assessment tasks. The engaging lectures will develop students' discovery abilities through class discussions on course materials as well as current affairs in the financial market. Practical assignments and projects require students to discover and innovate through the use of information database and platform, and independent research.

Course Intended Learning Outcomes (CILOs)

	CILOs	Weighting (if app.)	DEC-A1	DEC-A2	DEC-A3
1	Justify and explain modern financial institution's risks and relate them to the regulation of these various institutions, such as insurance companies and commercial banks. Examples are the Gramm-Leach-Bliley Act, Patriot Act, Insurance Companies Ordinance, Securities and Futures Ordinance, and Banking Ordinance in Hong Kong	12.5	X	X	
2	Apply different financial models to assess and measure interest rate risk and credit risk in relation to the Basel framework. Demonstrate skills in using information platforms (suggestions include Bloomberg and BankScope) to collect data and conduct analysis pertaining to interest rate risk and credit risk management, and in the process discover more about the risk management of financial institutions.	16.5		X	X
3	Apply the Value-at-Risk models to assess, and measure credit and market risks, set capital requirements in compliance with the Basel framework, and justify the application of these models in practice.	16.5		X	X
4	Justify and explain the operational risk, foreign exchange risk, liquidity risk, etc., faced by modern financial institutions in relation to Basel and regulatory requirements in Hong Kong.	16.5		X	X
5	Apply skills such as liquidity management, diversification, and capital adequacy requirements to manage various risks faced by modern financial institutions face.	16.5		X	X

6	Design strategies utilizing various financial derivative instruments, including futures, forward, options and swaps to manage various risks faced by modern financial institutions.	16.5		X	X
7	Explain the role of securitization in improving the return-risk trade-off for financial institutions, and Sarbanes-Oxley Act.	5	X	X	

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to real-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

Learning and Teaching Activities (LTAs)

	LTAs	Brief Description	CILO No.	Hours/week (if applicable)
1	Lectures	Students will engage in lectures about the key concepts and theoretical framework with critical and logical thinking. Students will discuss questions and solve problems in the management of financial institutions.	1, 2, 3, 4, 5, 6, 7	3 hours lecture per week
2	In-class discussion	Students will participate in in-class discussions about the most up-to-date issues in the management of financial institutions with good communication skills, critical thinking, and creative and innovative abilities.	1, 2, 3, 4, 5, 6, 7	

Assessment Tasks / Activities (ATs)

	ATs	CILO No.	Weighting (%)	Remarks (e.g. Parameter for GenAI use)
1	Case Study/Project	2, 4, 6	10	
2	Assignments	1, 2, 3, 5	20	
3	In-class Participation	1, 2, 3, 4, 5, 6, 7	10	

Continuous Assessment (%)

4 EF4334: Regulation and Management of Financial Institutions

40

Examination (%)

60

Examination Duration (Hours)

3

Additional Information for ATs

Students are required to pass both coursework and examination components in order to pass the course.

Assessment Rubrics (AR)

Assessment Task

Case Study/Project

Criterion

Based on students' performance in the case study/project

Excellent (A+, A, A-)

Strong evidence of original thinking; good organization, capacity to analyse and synthesize; superior grasp of subject matter; evidence of extensive knowledge base.

Good (B+, B, B-)

Evidence of grasp of subject, some evidence of critical capacity and analytic ability; reasonable understanding of issues; evidence of familiarity with literature.

Fair (C+, C, C-)

Student who is profiting from the university experience; understanding of the subject; ability to develop solutions to simple problems in the material.

Marginal (D)

Sufficient familiarity with the subject matter to enable the student to progress without repeating the course.

Failure (F

Little evidence of familiarity with the subject matter; weakness in critical and analytic skills; limited, or irrelevant use of literature.

Assessment Task

Assignments

Criterion

Based on the take-home problem sets

Excellent (A+, A, A-)

Strong evidence of original thinking; good organization, capacity to analyse and synthesize; superior grasp of subject matter; evidence of extensive knowledge base.

Good (B+, B, B-)

Evidence of grasp of subject, some evidence of critical capacity and analytic ability; reasonable understanding of issues; evidence of familiarity with literature.

Fair (C+, C, C-)

Student who is profiting from the university experience; understanding of the subject; ability to develop solutions to simple problems in the material.

Marginal (D)

Sufficient familiarity with the subject matter to enable the student to progress without repeating the course.

Failure (F)

Little evidence of familiarity with the subject matter; weakness in critical and analytic skills; limited, or irrelevant use of literature.

Assessment Task

In-class Participation

Criterion

Based on students' participation in class discussion

Excellent (A+, A, A-)

Strong evidence of original thinking; good organization, capacity to analyse and synthesize; superior grasp of subject matter; evidence of extensive knowledge base.

Good (B+, B, B-)

Evidence of grasp of subject, some evidence of critical capacity and analytic ability; reasonable understanding of issues; evidence of familiarity with literature.

Fair (C+, C, C-)

Student who is profiting from the university experience; understanding of the subject; ability to develop solutions to simple problems in the material.

Marginal (D)

Sufficient familiarity with the subject matter to enable the student to progress without repeating the course.

Failure (F)

Little evidence of familiarity with the subject matter; weakness in critical and analytic skills; limited, or irrelevant use of literature.

Assessment Task

Final Examination

Criterion

Based on the 3-hour final exam

Excellent (A+, A, A-)

Strong evidence of original thinking; good organization, capacity to analyse and synthesize; superior grasp of subject matter; evidence of extensive knowledge base.

Good (B+, B, B-)

Evidence of grasp of subject, some evidence of critical capacity and analytic ability; reasonable understanding of issues; evidence of familiarity with literature.

Fair (C+, C, C-)

Student who is profiting from the university experience; understanding of the subject; ability to develop solutions to simple problems in the material.

Marginal (D)

Sufficient familiarity with the subject matter to enable the student to progress without repeating the course.

Failure (F)

Little evidence of familiarity with the subject matter; weakness in critical and analytic skills; limited, or irrelevant use of literature.

Part III Other Information

Keyword Syllabus

- 1. Financial services industry, functions and regulation of financial institutions, important aspects of USA's Gramm-Leach-Bliley Act and Patriot Act, Hong Kong's Banking Ordinance, Insurance Companies Ordinance and Securities and Futures Ordinance.
- 2. Risks of financial institutions and the role of Basel III and the Banking Ordinance in Hong Kong.
- 3. Interest rate risk, repricing model, duration, requirements by the Hong Kong Monetary Authority for sound practices by authorized licenses banks, restricted licensed banks and deposit taking companies.
- 4. Bank accounting, accepted accounting principles for bank accounting, and performance evaluation.
- 5. Credit risk, return on a loan, default risk models, loan portfolio, Basel III compliance.
- 6. Market risk, Value-at-risk models, the RiskMetrics model, Basel III compliance.
- 7. Operational risk, foreign exchange risk, liquidity risk, Basel III compliance.
- 8. Liability and liquidity management, choice of liability structure.
- 9. Capital adequacy, insolvency risk, capital adequacy ratios, Basel III compliance.
- 10. Diversification, product diversification, geographic diversification.
- 11. Financial derivatives including credit derivatives, interest rate futures, caps/floors, options, swaps, hedging, regulations governing derivatives.
- 12. Securitization, asset-backed securitization, special purpose vehicles (SPV), importance of Sarbanes-Oxley Act in minimizing abuse of SPVs.
