Part II Course Details

Abstract

This course aims (1) to help students critically examine the three major ethical approaches (utilitarianism, deontology, and virtue ethics) and discover their practical relevance in forming and evaluating various public policies, (2) to acquire and develop critical and analytical thinking skills for making normative judgments about major moral controversies in contemporary public policy, especially polies in relation to contemporary high-tech research and application, and (3) to discover the role of responsible citizens as moral agents in the collective reflection and resolution of moral controversies in public policy by critically applying key ethical concepts (such as utility, pleasure, interests, liberty, rights, virtue) and relevant normative theories in their ethical deliberations.

	CILOs	Weighting (if app.)	DEC-A1	DEC-A2	DEC-A3
1	Critically examine the three major ethical approaches (utilitarianism, deontology, and virtue ethics) and discover their practical relevance in forming and evaluating various public policies.		X	X	X
2	Acquire and develop critical and analytical thinking skills for making normative judgments about major moral controversies in contemporary public policy, especially policies in relation to contemporary high-tech research and application		X	X	X
3	Discover the role of responsible citizens as moral agents in the collective reflection and resolution of moral controversies in public policy by critically applying key ethical concepts (such as utility, pleasure, interests, liberty, rights, virtue) and relevant normative theories in their ethical deliberations		X	x	x
4	Develop and master communicative skills to constructively and critically engage with other students who may hold different cultural or moral viewpoints regarding the ethical issues of public policy formulation, implementation and evaluation.		X	X	X

Course Intended Learning Outcomes (CILOs)

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to real-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

Learning and Teaching Activities (LTAs)

	LTAs	Brief Description	CILO No.	Hours/week (if applicable)
1	Lecture and in-class discussion	To acquire a good understanding of the relevant concepts and theories; to critically evaluate and analyse policies and cases; to acquire and develop analytical skills and critical reasoning about moral dilemmas in public life and respond to these dilemmas, especially those in relation to high- tech development in contemporary society.	1, 2, 3, 4	3 hrs per week
2	Quiz	To test students' grasper of the major ethical approaches and their ability to comprehend and analyse related ethical and policy issues as well as their independent critical thinking.	3, 4	
3	Presentation	To conduct an individual or group presentation on relevant topics to improve their analytical ability and ethical comprehension as well as their communication skills (students need to find new cases, issues, or documents to construct their presentation rather than to repeat lecture materials).	1, 2, 3, 4	
4	Individual essay	To demonstrate their own view of an important issue studied in the course in the ethical- argumentative manner (students should not only summarize what they have learned, but to offer ethical arguments for their views).	1, 2, 3, 4	

Assessment Tasks / Activities (ATs)

	ATs	CILO No.		Remarks (e.g. Parameter for GenAI use)
1	Quiz	1, 2, 3, 4	20	
2	Presentation	1, 2, 3, 4	30	
3	Individual Essay	1, 2, 3, 4	50

Assessment Rubrics (AR)

Assessment Task

1. Presentation

Criterion

Participation and presentation skills in the discussion. Ability to explain and evaluate key concepts and theories. Ability to present organized ideas and structured arguments to support conclusions.

Excellent (A+, A, A-)

Very active participation and very good presentation skills. Very good explanation and evaluation of key concepts and theories. Outstanding ability to present organized ideas and structured arguments to support conclusions.

Good (B+, B, B-)

Active participation and good presentation skills. Good explanation and evaluation of key concepts and theories. Strong ability to present organized ideas and structured arguments to support conclusions.

Fair (C+, C, C-)

Limited participation and limited presentation skills. Limited explanation and evaluation of key concepts and theories. Some ability to present organized ideas and structured arguments to support conclusions.

Marginal (D)

Very limited participation and very limited presentation skills. Very limited explanation and evaluation of key concepts and theories. Very limited ability to present organized ideas and structured arguments to support conclusions.

Failure (F)

No participation. Little evidence of being able to explain and evaluate key concepts and theories. Weak ability to present organized ideas and structured arguments to support conclusions.

Assessment Task

2. Individual Essay

Criterion

Mastery of the reading. Ability to explain and evaluate key concepts and theories. Ability to present organized ideas and structured arguments to support conclusions.

Excellent (A+, A, A-)

Excellent mastery of the reading. Very good explanation and evaluation of key concepts and theories. Outstanding ability to present organized ideas and structured arguments to support conclusions.

Good (B+, B, B-)

Satisfactory mastery of the reading. Good explanation and evaluation of key concepts and theories. Strong ability to present organized ideas and structured arguments to support conclusions.

Fair (C+, C, C-)

Limited mastery of the reading. Adequate explanation and evaluation of key concepts and theories. Some ability to present organized ideas and structured arguments to support conclusions

Marginal (D)

Very limited mastery of the reading. Very limited explanation and evaluation of key concepts and theories. Very limited ability to present organized ideas and structured arguments to support conclusions.

Failure (F)

Little or no mastery of the reading. Little evidence of being able to explain and evaluate key concepts and theories. Weak ability to present organized ideas and structured arguments to support conclusions.

Assessment Task

3. Quiz

Criterion

Independent critical thinking. Ability to explain and evaluate key concepts and theories. Ability to present organized ideas and structured arguments to support conclusions.

Excellent (A+, A, A-)

Outstanding independent critical thinking. Very good explanation and evaluation of key concepts and theories. Outstanding ability to present organized ideas and structured arguments to support conclusions.

Good (B+, B, B-)

Good independent critical thinking. Good explanation and evaluation of key concepts and theories. Strong ability to present organized ideas and structured arguments to support conclusions.

Fair (C+, C, C-)

Limited independent critical thinking. Adequate explanation and evaluation of key concepts and theories. Some ability to present organized ideas and structured arguments to support conclusions

Marginal (D)

Very limited independent critical thinking. Very limited explanation and evaluation of key concepts and theories. Very limited ability to present organized ideas and structured arguments to support conclusions.

Failure (F)

Serious lack of independent critical thinking. Little evidence of being able to explain and evaluate key concepts and theories. Weak ability to present organized ideas and structured arguments to support conclusions.

Part III Other Information

Keyword Syllabus

Three major approaches to ethics: utilitarianism, deontology, and virtue ethics. Concepts in ethics: utility, pleasure, interests, liberty, rights, virtue, equality, etc. Ethical problems and issues in public policy in relation to high-tech development and application: artificial intelligence, autonomous vehicles, sex robots, male pregnancy, abortion, animal welfare, environmental protection, human relations, sexual morality, and social order.
